RECEIVE 1 FREE ENERGY CONSULTATION

How energy efficient are your homes? Find out by receiving a free energy consultation

Services include one free:

1. IECC Performance Path software analysis
2. Insulation and air barrier review and advice
3. Blower door test
4. Duct leakage test

Contact a participating Home Energy Rater:
http://pennenergycodes.com/energyexperts/

‣ Builders may choose to receive any or all of the 4 services listed above. All services may be provided for the same home or split among several homes.
‣ This is a free service of the federally funded Penn Energy Codes Program, administered by Performance Systems Development
‣ Receipt of these services does not obligate the builder to the purchase of any future product or service
‣ Services are performed by a network of independent, certified Home Energy Raters
‣ Homes must have no more than 3,000 sq. ft. of above grade conditioned floor area and no more than two air handler units (unless agreed upon in advance by the Rater).

Raters must contact Mike Turns at 484-684-5625 or mturns@psdconsulting.com prior to each consultation to ensure funds are still available
